

# Microline TFC RO Drinking Water System

**Water, the way it is supposed to be.**

**Because water is vital..**

- Water is a daily, life-sustaining requirement.
- It is one of the pure and basic necessities in life.
- Ensuring that the water we drink everyday is the safe, natural water that our bodies demand is as vital as the water itself.
- Unfortunately, not all of the water we use from our taps is the pure, fresh water that our bodies desire.
- The MICROLINE RO DRINKING WATER SYSTEM effectively reduces harmful impurities, turning ordinary tap water in the water that nature intended for us to drink, fresh, natural, life-sustaining water.

# Reverse Osmosis Drinking Water System

- Delicious, sparkling-clear drinking water
- Convenience: Fresh, clean water ready at your faucet
- Pristine, flavorful coffee, tea and juice
- Quality water for your aquarium
- Cleanly rinsed fresh fruits and vegetables
- Crystalline, harder and clearer ice cubes
- Prolong the life of your humidifier or steam iron
- Spotless glassware when rinsed with R.O. water
- Cost effective: No more bottled water costs
- Better tasting soups, sauces and meals
- Environmentally sound: No chemicals
- Great for your pets

## Model T.F.C.-300
