

Free Flow

TANKLESS REVERSE OSMOSIS SYSTEM

CS-RO800

Traditional RO vs. Free Flow Tankless RO

Traditional RO

- ✗ Requires a storage tank
- ✗ Water sits in the tank until needed
- ✗ More time-consuming maintenance

Free Flow RO

- ✓ Tankless, compact design
- ✓ Freshly filtered water on demand
- ✓ Simple twist-and-lock filter change

System Specifications

Dimensions

15.6 × 5.4 × 15.5 in.

Gallons Per Day

800

Maximum Raw Water TDS

1,000

Purified : Waste Ratio

3 : 1

Water Pressure (Min-Max)

15 - 100 psi

Temperature Range

40 - 100° F

Multi-Stage Filtration

PPC Filter

Pre-filtration

- Reduces sediment and chlorine
- Improves water odor

RO Membrane

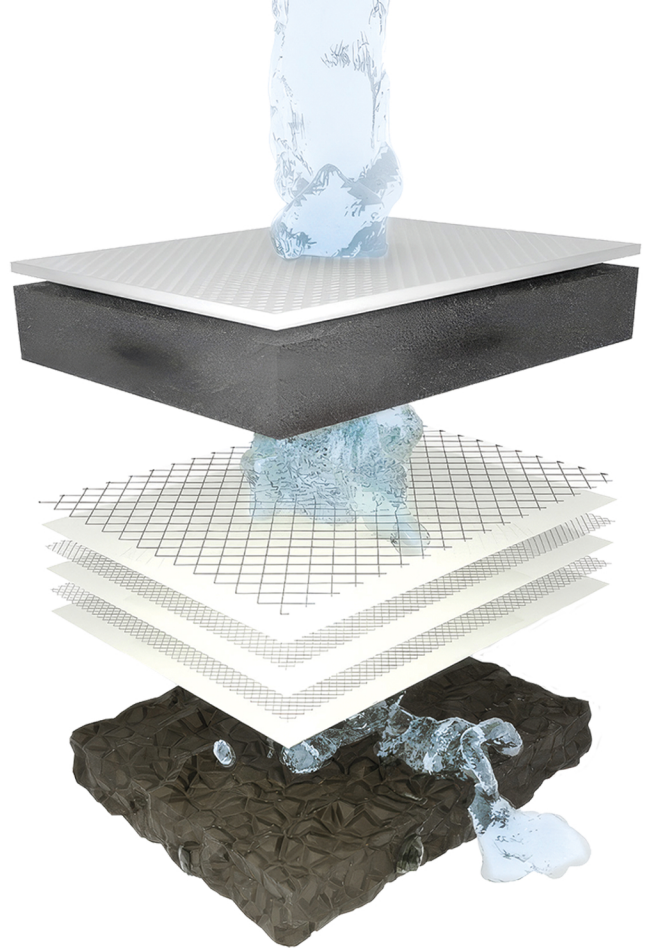

Advanced Purification

- Reduces TDS
- Filters down to 0.0001 microns

Mineral Plus Cartridge

Remineralization

- Restores calcium & magnesium
- Enhances taste

Understand Your Water at a Glance

PURE

PURE and the displayed number show your outgoing (filtered) TDS, so you can verify your water quality at a glance.

RAW

RAW and the displayed number indicate your incoming water TDS, letting you compare source water quality.

PERCENTAGE %

The percentage display shows remaining filter life, so you know when it's time for a replacement.

Sustainable by Design

When it's time for a filter change, simply replace the internal filter cartridge while keeping the durable housing in place. By replacing only what's needed, you reduce waste and minimize the materials discarded with every filter replacement.

Restore What Reverse Osmosis Removes

Enjoy the purity of reverse osmosis without sacrificing taste. Our optional **Mineral Plus Cartridge** restores calcium and magnesium for fresh, great-tasting water.
